SADARU WIJETHUNGA

UNDERGRADUATE

Third-year BSc (Hons) Information Technology undergraduate at SLIIT with hands-on experience in Java, Spring Boot, React.js, Node.js, MongoDB, MySQL, and Android development. Developed academic and personal projects involving web applications, REST APIs, database management, UI development, and software testing. Seeking an internship opportunity where I can apply my technical skills, gain industry experience, and contribute to effective software solutions.

Education

Sri Lanka Institute of Information Technology

2023 - Present

BSc (Hons) in Information Technology

Skills

Languages
Java, PHP, Python, Kotlin

Frontend
React.js, HTML5, CSS3, Tailwind CSS

Backend
Spring Boot, Node.js, Express.js

Databases
MySQL, MongoDB

Testing & API
Postman, Playwright

Tools
Git, GitHub, Vite, IntelliJ IDEA, VS Code, Eclipse, Android Studio

Design & Prototyping Tools
Figma, Mockflow

Soft Skills
Problem-Solving, Critical Thinking, Team Player, Effective Communication

Projects

JW-Studio Management System

React.js | Node.js | Express.js | MongoDB

- Developed Feedback and Question Management modules for both client and admin interfaces.
- Built responsive React.js interfaces for creating, viewing, updating, and managing feedback and questions.
- Developed backend REST APIs using Node.js and Express.js.
- Integrated MongoDB for persistent data storage and retrieval.
- Collaborated with team members using Git/GitHub to integrate modules into the overall application.

InShotLK - Online Camera Store

Kotlin | Android | Gradle

- Developed an Android e-commerce application for browsing, renting, and purchasing cameras and accessories.
- Implemented product browsing, search, promotional offers, and top-deal sections.
- Designed responsive Android interfaces using Kotlin following Android development principles.

MindWell - Wellness & Habit Tracking Application

Kotlin | Android | Gradle

- Developed an Android application for tracking mood, hydration, and daily habits.
- Implemented user interfaces for recording and monitoring daily activities.
- Designed an intuitive mobile experience focused on simple navigation and user interaction.

SADARU WIJETHUNGA - Projects (Continued)

Online Event Planning System

Java | HTML | CSS | MySQL

- Developed the Event Management module with complete CRUD functionality.
- Developed backend functionality for creating, retrieving, updating, and deleting event records.
- Designed and integrated MySQL database tables for event data management.
- Implemented database operations for efficient event creation, retrieval, modification, and deletion.

Online Pharmacy Authentication UI

PHP | HTML | CSS | JavaScript

- Developed a responsive authentication interface for an online pharmacy system, focusing on user-friendly Sign In and Sign Up experience
- Designed a modern authentication interface with responsive layouts and smooth UI transitions.
- Applied HTML, CSS, JavaScript, and PHP to implement the frontend interface and authentication-related functionality.
